Summit Overview

(Background Information - justification)

Clinical Governance is a crucial fragment of the healthcare sector round the globe. In Nigeria, healthcare governance has been a major source of concern for stakeholders and beneficiaries. This sector has been static and without improvement for a prolonged period of time. There have been issues such as non-payment of salaries, health workers strike, clinical negligence and more. This summit aims to discuss clinical practices, healthcare professional conduct, funding and regulatory impact on the healthcare system.

Summit objectives:

The summit will address the following:

- To bring together stakeholders of the healthcare industry to address the present situation of the Nigerian healthcare system.
- To share tools helpful to navigate the clinical system
- Share best Clinical practices
- Cross pollinate ideas and strategies
- Educate and discuss all topical policy issues of importance in the healthcare industry.

Who should attend (Target audience)?

- Healthcare practitioners (Public and Private)- Chief Medical Directors, Doctors, Nurses, Midwives
- Insurance Companies; HMOs, Life Insurance
- Healthcare policy makers, medical professionals
