Summit Overview

(Background Information – justification)

Energy is an important factor in all the sectors of any country's economy and it plays the most vital role in the economic growth, progress, and development, as well as poverty eradication and security of any nation. The standard of living of a given country can be directly related to the per capita energy consumption. Future economic growth crucially depends on the long-term availability of energy from sources that are affordable, accessible, and environmentally friendly.

The aim of this summit is to bring together regulators, stakeholders and professionals in the energy/power sector and focus on a range of governance, operations, transition and emerging threats and opportunities facing the sector. ERGS is a platform to circulate a shared vision, discuss leadership and transformational issues of importance in the energy industry.

This edition aims to examine the present state of the Nigerian energy sector, discuss the relationship between carbon emission and quality of standard of living, explore the penetration of renewable energy in the Nigerian space and address the risk governance issues facing the sector.

Summit objectives:

(what do we want to achieve?)

The summit will address the following:

- The relationship between the present state of the Nigerian energy sector, economy growth and standard of living
- To explore the penetration of renewable energy in the Nigerian space
- To debate the best approach and sustainable development for increasing renewable energy and energy efficiency in Nigeria.
- To channel risk management practices on the short- and long-term effects of renewable energy efficiency on business operations
- To discuss challenges facing Energy Governance standards in Nigeria

Who should attend (Target audience)?

- Power distribution, generation and transmission companies
- Oil & Gas industry
- Manufacturing industry
- Renewable energy industry
- Environmental, Social and Governance bodies (ESGs)
- Social and Environmental Risk Leads
- Finance Directors and Executives
- Health & Safety and Insurance Professionals
- SDGs

Our Partners

- Energy Training Centre
- Continental Re

Summit Chair

Mr. Dafe Akpeneye – Commissioner, Nigerian Electricity Regulatory Commission

Summit Hosts

Joachim Adenusi- MD/ CEO Conrad Clark Nigeria

Ibiene Okeleke- MD, Energy Training Centre

Speakers

Mr. Effiong Okon - Operations Director, Seplat Petroleum Development Company

Mr. Yusuf Suleiman - Founder/CEO, Blue camel Energy

Dr Constance Omawumi – Environmental & Social Risk Management, International Finance Corporation

Seyi Sobogun – Head, Commercial (Sustainable

Seyi Sobogun – Head, Commercial (Sustainable Business Strategies), Egbin Power PLC

Shakira Mustapha- Head of Risk Management, Nascon Allied Industries Plc. (Subsidiary of Dangote Group)
