Venue: Four Points by Sheraton, V.I, Lagos.

Time: 9:00am – 2:00pm

FEES: General- #100,000.00
Advantaged-#250,000

Adequate energy supply is considered as the backbone of any sustainable development of any country. Energy shortages continue to stifle economic growth and are regarded as the primary drawback for operations for businesses. With a steady increase in population growth, the demand for energy will only increase and with a call reduce global emission by exploring clean sources of energy, what are the risks facing the Nigerian Energy Sector? How can we minimize current threats facing the key players, reduce our carbon footprint and support our growing economy? This Energy Risk & Governance Summit aims to address challenges, opportunities and explore solutions for new ideas on energy generation, transmission and distribution to achieve sustainable energy by 2030.
