**LINKING PEOPLE,  
PERFORMANCE  
& RISK**

# ABOUT **ConradRP** ?

Conrad RP is born out of a passion to support the growing use of risk management skill as a decision making and performance improvement tool. The main aim of this solution is to give none risk professionals, experts or users an extremely user friendly, engaging but effective tool to be able to set objectives, align objectives with organizational strategies, work collaboratively with colleagues to identify, describe, assess, evaluate and manage all threats and opportunities to the achievement of these goals, deliverables or set objectives.

The solution is simple enough to set up, its looks and feels great to use with the capacity to collate large data from different sources for multiple uses and analysis. Conrad RP is also designed to be an intelligent source of managing staff tasks, key performance indicators, and risk information.

It enables a structured and systematic approach to managing organizational Risk, Performance.

## Conrad RP Uniqueness

Conrad RP will inspire organizations and all relevant stakeholders to engage, collaborate, communicate and make timely decisions regarding threats or opportunities that will impact the organizational goals and objectives.

It is scalable and easily deployed within small, medium, and large-scale organizations. It is a “multi-tenant” Software as a Service (SAAS)

**CONRAD RP IS A USER-FRIENDLY WEB-BASED SYSTEM, THAT ENABLES SEAMLESS PEOPLE ENGAGEMENT AND OBJECTIVES ALIGNMENT, ACROSS ALL FUNCTIONS IN THE ORGANISATION.**

- **For Operations Management and HR**  
A transparent performance reporting dashboard that shows all user dependencies and their respective contribution to the goals of the organisation.
- **For Strategy, Planning, Risk**  
It enables the identification of future scenarios that can impact objectives, outputs and performance outcomes. Provides tools to develop series of remedial action that can be measured, monitored, and managed.
- **Agile Working and Organisation Culture**  
It acts as a time-bound notification bulletin that encourages proactive prioritisation and escalation of tasks and actions as they fall due.
- **Supports Financial Plan**  
It supports financial budgeting and planning by providing insight into the value of future threats and opportunities to business, and the estimated cost of treating them.
- **For Regulatory Compliance**  
It follows all major global risk and governance standards.

# WHY CONRAD RP?

# HOW UNIQUE IS CONRAD RP?

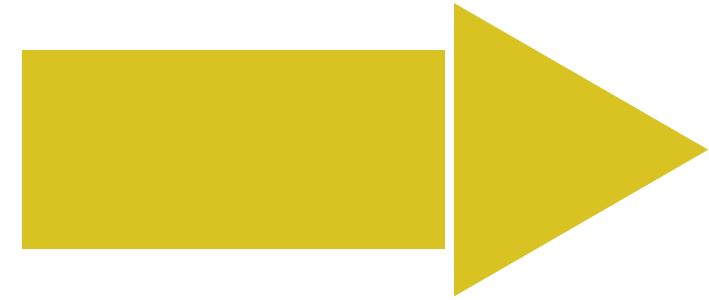

It is an all-encompassing enterprise tool that, demonstrates and reinforces the commercial benefits of a culture that fosters cross-functional collaboration and communication, in order to achieve workforce success and sustainable growth.

## **Users**

People and organisations desiring a culture of agile working, transparency, and cross-functional collaboration that results in organisation growth and sustainability.
